Ulyett Landscapes Limited

Health, Safety, Quality & Environmental Manager

Job description

We are a busy landscaping company based in Blidworth, a small village on the outskirts of Mansfield. We work predominantly in the commercial sector and cover sites nationally however work mainly in the Midlands. We are one of the largest privately owned landscaping businesses in the area. We have 62 members of staff with around 55 of them working out on site daily.

A rare opportunity which has arisen within our small office/management team for a qualified individual to look after our internal Health, Safety, Quality & Environmental matters and maintain our integrated business management system which is accredited to ISO 9001,14001 and OHSAS 18001.

The successful candidate will be a holder of the Nebosh general certificate or equivalent along with other relevant health, safety, quality and environmental qualifications and knowledge.

The job is mainly based at our head office in Blidworth however some travel is required to undertake site audits and risk assessments, a company pool vehicle will be available for this.

Hours of work would be 7.30am - 4.30pm Monday to Friday with an immediate start.

Salary is negotiable depending upon the individual, their qualifications and experience in the role however will be within the market parameters for this industry and the size of our company. A company pension will also be available on successful completion of probationary period.

Close

- carry out regular site inspections to check policies and procedures are being properly implemented;
- ensure working practices are safe and comply with legislation;
- prepare health and safety strategies and develop internal policy;
- lead in-house training with managers and employees about health and safety issues and risks;
- keep records of inspection findings and produce reports that suggest improvements;
- record incidents and accidents and produce statistics for managers;
- keep up to date with new legislation and maintain a working knowledge of all Health and Safety Executive (HSE) legislation and any developments that affect the employer's industry;
- read professional journals;
- produce management reports, newsletters and bulletins;
- ensure equipment is installed safely;
- manage and organise the safe disposal of hazardous substances, e.g. asbestos;
- advise on a range of specialist areas, e.g. fire regulations, hazardous substances, noise, safeguarding machinery and occupational diseases.

Personal skills will include:

- excellent written and spoken communication skills in order to explain health and safety processes to a range of people and to give presentations to groups;
- negotiating skills to convince managers of the need to implement and maintain safety standards that may compromise speed or efficiency in the organisation;
- patience and diplomacy because the profession requires a collaborative approach;
- the ability to understand and analyse complex information and present it simply and accurately;
- an investigative mind;
- IT skills;
- attention to detail;
- a flexible approach to work;
- an interest in the law and the ability to understand regulations;
- physical fitness, if your work will involve time on large-scale plants or on outdoor sites;
- a driving licence - essential for jobs involving travel between sites.

All candidates should complete an application form available under the careers section on our website www.ulyettlandscapes.com and email to me kate@ulyettlandscapes.com
